

Error:

The name ""SocialRating"" provides a rating system with recommendations for SocialEntities.

{{Box Note|boxtype=warning|Note text=Pages in the namespaces "SocialEntity" and "User" are indexed by search engines by default until version 3.1.13. If you run a public wiki with an earlier version, you should [https://www.mediawiki.org/wiki/Help:Controlling_search_engine_indexing exclude these namespaces from being searchable] unless you want these pages to be indexed by public search engines.}}

This extension provides a button that allows to recommend certain types of social entities such as blog entries. It is not possible to recommend social entities of type "profile".' is too long (673 characters).

Please provide this file in your support ticket
