

Error:

The name ""SocialTopics"" provides the SocialEntity types "discussion" and "topic".

{{Box Note|boxtype=warning|Note text=Pages in the namespaces "SocialEntity" and "User" are indexed by search engines by default until prior to version 3.1.13. If you run a public wiki with an earlier version, you should [https://www.mediawiki.org/wiki/Help:Controlling_search_engine_indexing exclude these namespaces from being searchable] unless you want these pages to be indexed by public search engines.}}

At the bottom of each content page, the social entities associated with the page are displayed, filtered by the "topic" type.

The discussion page is completely replaced by the page view of the SocialEntity type "discussion". It displays a timeline that lists the social entities of type "topic" that belong to this discussion. In addition, free text can be entered at the beginning of the discussion page just like on a standard MediaWiki discussion page.' is too long (957 characters).

Please provide this file in your support ticket
