

Error:

The name ""UserSideBar"" lets users create their own personal sidebar navigation.

**The content under Focus in the Users' Home Bar can be customized by the user.*

**Extensions can provide a tag over which content is displayed, currently the following pages are shown by default:*

****PAGESVISITED**

****YOUREDITS** (own edits)

****WATCHLIST**

**Users can also create their own areas:*

***Entries with an asterisk (*) are always interpreted as area headings (analog mediawiki: sidebar).*

***Entries with two stars (**) are content elements of the area. Single (**) without assignment to (*) are discarded.*

***The pages are determined as in the Mediawiki: Sidebar by URL' is too long (641 characters).*
