The "ParserFunctions" extension enhances the wikitext parser with helpful functions, mostly related to logic and string-handling. Since MediaWiki 1.15, ParserFunctions has incorporated most (but not all) of the functions from the [https://www.mediawiki.org/wiki/Extension:StringFunctions StringFunctions] extension, which may be enabled or disabled. {{MWlink|https://www.mediawiki.org/wiki/Extension:ParserFunctions}} {{Translation}} [[Category:Extension]] [[Category:BlueSpice free]]
