Order and overview in the wiki

The wiki way is to create content easily. But after a while it is very important to interconnect content to make sure that you will find what you are looking for. Some classification criterions:

- Linking between the articles, to carry on issues or link similar information
- Insert categories, which can be sorted seperately.
- Create Subpages to map secundary processes
- The principle of namespaces
- Redirects to prevent duplicationan and und dealing with synonyms
