Features

Contents

Description

Review is a simple workflow tool for MediaWiki: users can start a review process of single articles by several users.

Usage / Features

- Dialogue to create a review process.
- Start and end date for the workflow.
- Appoint reviewers.
- Information about a review process in the statebar.
- Notification by email.

Technical information

Configuration

Some aspects of this extension can be configured on Special:BlueSpicePreferences, under section "Review". Here wiki administrators can configure:

- Whether only the owner of a review can change it.
- Whether the owner of a review will get notifications about changes.
- Whether reviewers of a review will get notifications about changes.
- Additional permission that will be granted to assigned users.
- Whether the workflow should be added to page history.

Rights (permissions)

Users must have "review" permission in order to do the review.

Requirements

Review requires BlueSpiceFoundation.
