Description

BlueSpiceConfigManager provides a special page that enables managing all BlueSpice wiki-wide settings in one place.

Usage / Features

Once on the special page, all settings will be grouped by logical groups. There are three ways of grouping the settings:

- Feature - grouping by type of functionality setting belongs to (searching, administration...)
- Extension - grouping by the extension the setting is coming from
- Package - grouping by the package extension providing the setting comes from - namely BlueSpiceFree and BlueSpicePro.

Technical information

Configuration

Rights (permissions)

This extension does not require any special rights.

Requirements

ConfigManager requires [BlueSpiceFoundation](#).

User manual
