

## Talk:Avatars

### Error:

not all Avatars are displayed

### Solution:

This caused by late loading of NSFileRepoConnector that sets the \$wgUploadPath. Define it in LocalSettings, before loading Avatars, then it works.

### **Not all Avatars are displayed** Created 6 years ago P [technik](#)

**Error:** not all Avatars are displayed

**Solution:** This caused by late loading of NSFileRepoConnector that sets the \$wgUploadPath. Define it in LocalSettings, before loading Avatars, then it works.
