HideTitle enables hiding of the title on the page, if it's necessary.

Usage / Features

To hide a page's title, use `__HIDETITLE__` anywhere in its source code.

Changing an existing article's title completely is not possible that way, but you can move the article to have the correct title.

Technical information

Configuration

This extension offers no configurations.

Rights (permissions)

This extension does not require any special rights. Users must have "edit" permission to insert the tag.
