A [quality version](#) of this page, [approved](#) on *19 September 2019*, was based off this revision.

Since 2010 there have been 21 releases of BlueSpice. BlueSpice replaced the product HalloWiki at that time. BlueSpice was initially a collection of extensions that could be extended by individual software packages. In 2015, all existing extensions and individual modules were combined in one distribution.^[1] Delivering BlueSpice together with MediaWiki was the next logical step.
