You can also compare two versions to see the difference between them at a glance. Just choose two versions you want to compare and click on *Compare selected revisions*.

If necessary, you can also restore an older version of the article. To do so, find the version you want to restore and click on the corresponding date and time stamp. This will open the desired version of the article. Now click on *Edit* and save the article. Please note that this will also create a new version of the article in the version history.

If you only want to undo the last change to an article, simply click on the *undo* link in the corresponding line.

Where to find the Version History

You can access the version history of any article by clicking on the *History* link in the header.

BlueSpice pro offers additional functionality for the Version History with its extension *VisualDiff.* To learn more about it, click here.
