

Reference:BlueSpiceCalumma

Extension\ BlueSpiceCalumma

Overview			
Description:	BlueSpice Skin		
State:	stable	Dependency:	BlueSpice
Developer:	HalloWelt	License:	GPL v3 only
Type:		Category:	-
Edition:	BlueSpice free		

Features

Usage

BlueSpiceCalumma is the responsive skin for BlueSpice 3.

Preferences

There is a user setting for the navigation-main panel (left panel) and the sitetools-main panel (right panel) to switch toggle behavior.

The value can be set as default value and at `Special:Preferences` by each user for themselves.

Special:Preferences checkbox	Value	Toggle beavior (no cookie)	Toggle beavior (cookie set)
not checked	false	Not collapsed	Last state (collapsed or open)
checked	true	Collapsed	Collapsed

Technical information

BlueSpiceCalumma is based on Bootstrap and the Wikimedia [Chameleon skin](#).

Default user settings
