Features

Description

BlueSpiceExtendedFilelist is special page listing all the files in the Wiki. It provides advanced user interface and other advantages over default MediaWiki filelist.

Usage / Features

- ExtendedFileList contains a list with files.
- While typing search string in filter input field, the number of listed Files is reduced.
- If there are many results, these are shown on several pages. The maximum number of hits per page can be set.
- Columns with different information can be toggled on and off. Sorting these columns is possible (ascending/descending)
- An upload button allows uploading files.
