

Reference:BlueSpiceInterwikiSearch

BlueSpiceInterwikiSearch allows simultaneously searching other BlueSpice3 wikis when performing a search on the wiki.

Extension\ : BlueSpiceInterwikiSearch

Overview			
Description:			
State:	stable	Dependency:	BlueSpice
Developer:	HalloWelt	License:	
Type:		Category:	
Edition:	BlueSpice free		
View help page			

Features

Usage

If BlueSpiceInterwikiSearch is enabled and configured on the wiki, every time user performs a search using the `Special:SearchCenter`, results from other wikis will be shown as well. Results from other wikis will be shown at the top of the page, below the filters, in form of Wiki name (number of results) buttons.
