

Manual:Using the Version History

Using the Version History

If you're especially interested in changes made to a certain article, you can access a list of all changes done to it by looking at its *version history*. Here you will find all older versions of the article in chronological order.

The screenshot shows the 'Revision history of "QM:Preparing an offer"' page. At the top, there is a link 'View logs for this page'. Below it is a 'Browse history' section with filters: 'From year (and earlier): 2017', 'From month (and earlier): all', 'Tag filter:', and a 'Deleted only' checkbox. A 'Show' button is present. Below the filters, there is a 'Diff selection' instruction: 'Mark the radio boxes of the revisions to compare and hit enter or the button at the bottom.' and a legend: 'Legend: (cur) = difference with latest revision, (prev) = difference with preceding revision, m = minor edit.' Below this is a 'Compare selected revisions' button. The main part of the screenshot is a list of revisions. Each revision line starts with a checkbox (radio button) and a link to compare with the current version (cur) or the previous version (prev). The revisions are listed in chronological order from newest to oldest. The first revision is from 09:06, 29 August 2016 by Sissy Oppermann, with a size change of +417 bytes. The second revision is from 09:05, 29 August 2016 by Thomas Schnakenberg, with a size change of -386 bytes. The third revision is from 09:03, 29 August 2016 by Sissy Oppermann, with a size change of +15 bytes. The fourth revision is from 11:58, 12 August 2016 by Sissy Oppermann, with a size change of +1 byte. The fifth revision is from 10:03, 12 August 2016 by Sissy Oppermann, with a size change of -6 bytes. The sixth revision is from 12:32, 10 August 2016 by Sissy Oppermann, with a size change of 0 bytes. The seventh revision is from 12:32, 10 August 2016 by Sissy Oppermann, with a size change of -446 bytes. The eighth revision is from 11:08, 10 August 2016 by Sissy Oppermann, with a size change of -1 byte. The ninth revision is from 10:33, 10 August 2016 by Sissy Oppermann, with a size change of -14 bytes. Each revision line also includes links for 'talk', 'contribs', and 'block', and an 'undo' link.

Screenshot: A typical revision history list

You can also compare two versions to see the difference between them at a glance. Just choose two versions you want to compare and click on *Compare selected revisions*.

If necessary, you can also restore an older version of the article. To do so, find the version you want to restore and click on the corresponding date and time stamp. This will open the desired version of the article. Now click on *Edit* and save the article. Please note that this will also create a new version of the article in the version history.

If you only want to undo the last change to an article, simply click on the *undo* link in the corresponding line.

Where to find the Version History

You can access the version history of any article by clicking on the *History* link in the header.

BlueSpice pro offers additional functionality for the Version History with its extension *VisualDiff*. To learn more about it, click [here](#).
