# Manual:Extension/BlueSpiceAuthors

Contents

What is Authors?

Authors extension displays all users who have contributed to the article.

Where to find Authors

Authors of a page are located in the right navigation, in Page Information flyout.

Each user in the list of authors is displayed with the role it has, original author or an editor. Original author is the user who originaly created the article, while editor are all users that edited the page after its original creation.

Settings

In BlueSpiceConfigManager under the section for BlueSpiceAuthors, configuration options for BlueSpiceAuthors can be found.

- Display authors - whether to display authors of a page on the Page Information in the Quality management tools.
