View help page			

Features

BlueSpiceAuthors displays the profile images of the users who have contributed to a wiki page. They are listed on the *Page information*, which can be accessed from the quality management tools.

Features

Image selection: The image shows the profile image that a user is currently using.

Avatar: If a user has not uploaded a profile picture, a personalized avatar is shown.

Deleted users: If users are not registered or were deleted since they made the contribution, an image with a yellow question mark is displayed.

Interaction: Hovering over the profile picture shows the user name. The image links to the user's profile page.

Technical information

Configuration

Users with admin rights can set in the [Config manager](#) if and how many authors should be shown on the page information. If there are more authors than configured, a pagination is being generated.

The display of authors can be suppressed with the behavior switch `__NOAUTHORS__` on an individual wiki page. It can be placed anywhere in the source code.

Rights (permissions)

This extension does not require any special rights. All users with *read* permissions can see the authors of a page.

Requirements

BlueSpiceAuthors requires [BlueSpiceFoundation](#) and [BlueSpiceAvatars](#).

User manual

For detailed description and usage, visit our [help page](#).

Demo site

To test the extension, go to the [BlueSpice Demo](#). The extension can be reviewed on any wiki page.
