View help page			

Features

PageAssignments allows to assign pages to single users or user groups. Assigned users automatically have edit rights for a page. They will be notified about changes to the page via email or internal notifications.

Usage / features

- Assign responsible editors to a page.
- Assign one single user, multiple users or an entire group.
- The responsible editor(s) for the page can be viewed in the flyout "Page assignments" in the quality management tools.
- Assigned users can transfer their responsibility to another user if they have reviewer rights.
- Users can view their assignments on the page *Special:PageAssignments*.
- Users with *maintenanceadmin* or *reviewer* rights can manage all assignments on the page *Special:ManagePageAssignments*.

Technical information

Configuration

The page assignments can be displayed in the title section of the page. Activate this page assignments display in *LocalSettings.php* (or in the php file in the *d.settings* folder):

```
$GLOBALS['bsgBlueSpiceCalummaPageHeaderBeforeContentEnabledProviders'] = [ "pageheader-assignments" ];
```

Set the limit:

```
$GLOBALS['bsgPageAssignmentsPageHeaderLimit'] = 25;
```

Rights (permissions)

Pages can only be assigned to users with the *pageassignable* permission (by default, this right is assigned to the *editor* and *author* roles). Only users with *pageassignments* permission can assign pages to others (by default, this right is assigned to the *reviewer* and *maintenanceadmin* role).

Requirements

PageAssignments requires [BlueSpiceFoundation](#).
