

8.3 UserManual:Extension/BlueSpiceWikiExplorer

The extension **WikiExplorer** allows to quickly filter and sort all Wiki pages based on your own filter criteria. WikiExplorer combines the functionality of many maintenance pages. By combining different filters, you can quickly find matching pages.

Accessing WikiExplorer

To access Wiki Explorer, go to *Global actions* and select *WikiExplorer*. This opens the special page *Special:WikiExplorer*.

Choosing the sorting criteria

Sorting criteria and visible columns can be changed by clicking on the arrow icon in the header of any list column.

Sorting sequence

Clicking on the header of any column (not on the arrow) sorts the table based on the values of that column. Changing the sorting order (ascending, descending) can be switched by clicking on the header multiple times.

Using filters

For some content, there are specially adapted filters available which can be used to sort the list. Filters can be accessed by clicking on the "arrow" icon in the column that should be filtered.

The following columns support filtering:

Content	Possible filters	Sortable
Title (Page name)	starts with, ends with, contains, contains not, equals, equals not	Yes
Namespace	starts with, ends with, contains, contains not, equals, equals not	Yes

Content	Possible filters	Sortable
Accesses	less than, greater than, equals	Yes
Creation date	None	No
Is redirect	None	Yes
Last comment	None	Yes
Last edit date	None	No
Size	less than, greater than, equals	Yes
Last editor	None	Yes
Categories	None	No
Linked files	None	No
Linked pages	None	No
Links to this page	None	No
Assigned editors	None	Yes
Released	yes, no	Yes
Release date	less than, greater than, equals	Yes
New version waits for release	None	Yes
