## Extension: BlueSpicePageAssignments

Overview			
Description:	Assigns individual users or whole groups to pages, e.g. as responsible editors.		
State:	stable	Dependency:	BlueSpice
Developer:	HalloWelt	License:	<a href="#">GPL v3 only</a>
Type:	<a href="#">BlueSpice</a>	Category:	Quality Assurance
Edition:	BlueSpice free		
<a href="#">View help page</a>			

### Features

**PageAssignments** allows to assign pages to single users or user groups. Assigned users are notified about assignment changes via email or internal notifications.

### Usage / features

- Assign responsible users to a page.
- Assign individual users or groups.
- The responsible editor(s) for the page can be viewed in the flyout "Page assignments" in the quality management tools.
- Users can view their assignments on the page *Special:PageAssignments*.
- Users with *admin*, *maintenanceadmin* or *reviewer* rights can manage all assignments on the page *Special:ManagePageAssignments*.

### Technical information

#### Configuration

The page assignments can be displayed in the title section of the page. Activate this page assignments display in *LocalSettings.php* (or in the php file in the *d.settings* folder):

```
$GLOBALS['bsgBlueSpiceCalummaPageHeaderBeforeContentEnabledProviders'] = [ "pageheader-assignments" ];
```

Set the limit:

```
$GLOBALS['bsgPageAssignmentsPageHeaderLimit'] = 25;
```

## Rights (permissions)

Pages can only be assigned to users with the *pageassignable* permission (by default, this right is assigned to the *reader*, *editor* and *author* roles). Only users with *pageassignments* permission can assign pages to others (by default, this right is assigned to the *reviewer*, *admin* and *maintenanceadmin* roles).

## Requirements

PageAssignments requires [BlueSpiceFoundation](#).
