

Manual:Extension/InviteSignup

A [quality version](#) of this page, [approved](#) on *20 November 2020*, was based off this revision.

Inviting a user

To set up user accounts, administrators should use the page *Special:InviteSignup*. This sends an email invitation to new users and the users can create their own login information by following the sign-up link in the email invitation.

Date	Email	Inviter	Signed up	Groups	
15:04, 20 November 2020	<input type="text" value="myemail@hallowelt.com"/>	Bluespice			<input type="button" value="Add"/>

Invite a user

After providing an email address and clicking *Add*, an email is sent to the invited user.

Hello,

Bluespice has invited you to sign up to My Company.
You can sign up at <https://mycompany.bluespice.cloud/w/index.php?title=Special:CreateAccount&invite=e6abfe199f93cb915e5243ce0dbf079cab7fc8ff>

Email notification to invited user

When the invited user clicks on the provided sign-up link, the page *Create account* appears in the browser. The user can now create a wiki account.
