

Manual:Extension/InviteSignup

A [quality version](#) of this page, [approved](#) on *20 November 2020*, was based off this revision.

Inviting a user

To set up user accounts, administrators should use the page *Special:InviteSignup*. This sends an email invitation to new users and the users can create their own login information by following the sign-up link in the email invitation.

Date	Email	Inviter	Signed up	Groups	
15:04, 20 November 2020	<input type="text" value="myemail@hallowelt.com"/>	Bluespice			<input type="button" value="Add"/>

Invite a user

After providing an email address and clicking *Add*, an email is sent to the invited user.

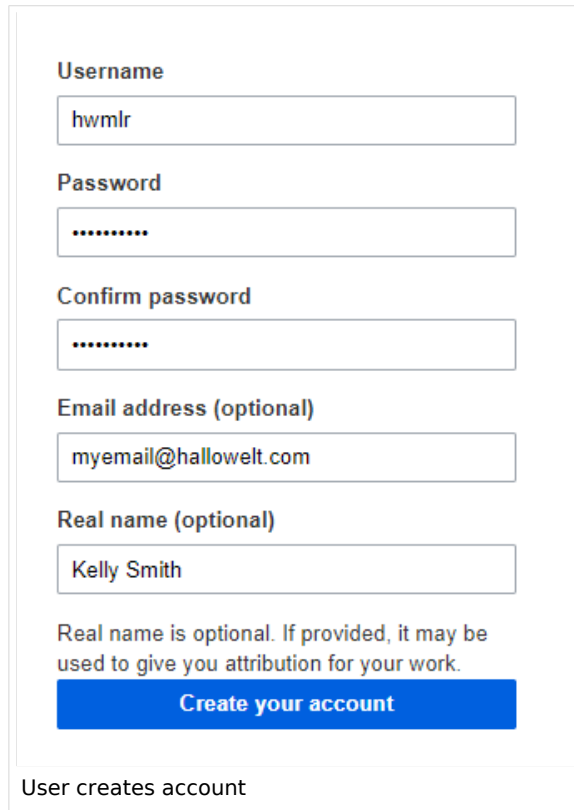

Hello,

Bluespice has invited you to sign up to My Company.

You can sign up at <https://mycompany.bluespice.cloud/w/index.php?title=Special:CreateAccount&invite=e6abfe199f93cb915e5243ce0dbf079cab7fc8ff>

Email notification to invited user

When the invited user clicks on the provided sign-up link, the page *Create account* appears in the browser. The user can now create a wiki account.

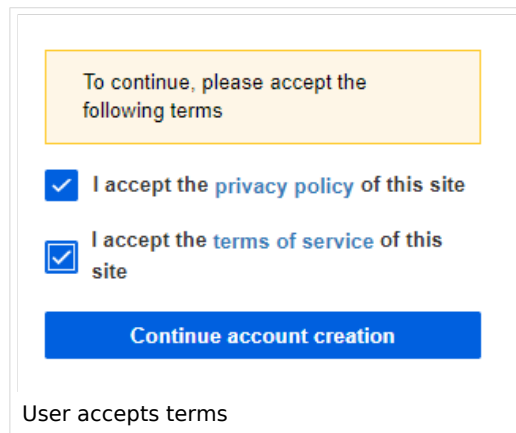

The screenshot shows a registration form with the following fields and values:

- Username:** hwm1r
- Password:** (masked with dots)
- Confirm password:** (masked with dots)
- Email address (optional):** myemail@hallowelt.com
- Real name (optional):** Kelly Smith

Below the fields, a note states: "Real name is optional. If provided, it may be used to give you attribution for your work." At the bottom of the form is a blue button labeled "Create your account".

User creates account

After clicking *Create your account*, the user is asked to accept the privacy policy and terms of service.

The screenshot shows a screen with a yellow box at the top containing the text: "To continue, please accept the following terms". Below this are two checkboxes, both of which are checked:

- ☒ I accept the [privacy policy](#) of this site
- ☒ I accept the [terms of service](#) of this site

At the bottom is a blue button labeled "Continue account creation".

User accepts terms

After checking both checkboxes, the user can finish the account creation process and is automatically logged in.
