View help page		

Features

PageAssignments allows to assign pages to single users or user groups. Assigned users are notified about assignment changes via email or internal notifications.

Usage / features

- Assign responsible users to a page.
- Assign individual users or groups.
- The responsible editor(s) for the page can be viewed in the flyout "Page assignments" in the quality management tools.
- Users can view their assignments on the page *Special:PageAssignments*.
- Users with *admin, maintenanceadmin* or *reviewer* rights can manage all assignments on the page *Special:ManagePageAssignments.*

Technical information

Configuration

Display assignments in the title section

The page assignments can be displayed in the title section of the page. Activate this page assignments display in *LocalSettings.php* (or in the php file in the *d.settings* folder):

```
$GLOBALS['bsgBlueSpiceCalummaPageHeaderBeforeContentEnabledProviders'] = [ "pageheader-
assignments" ];
```
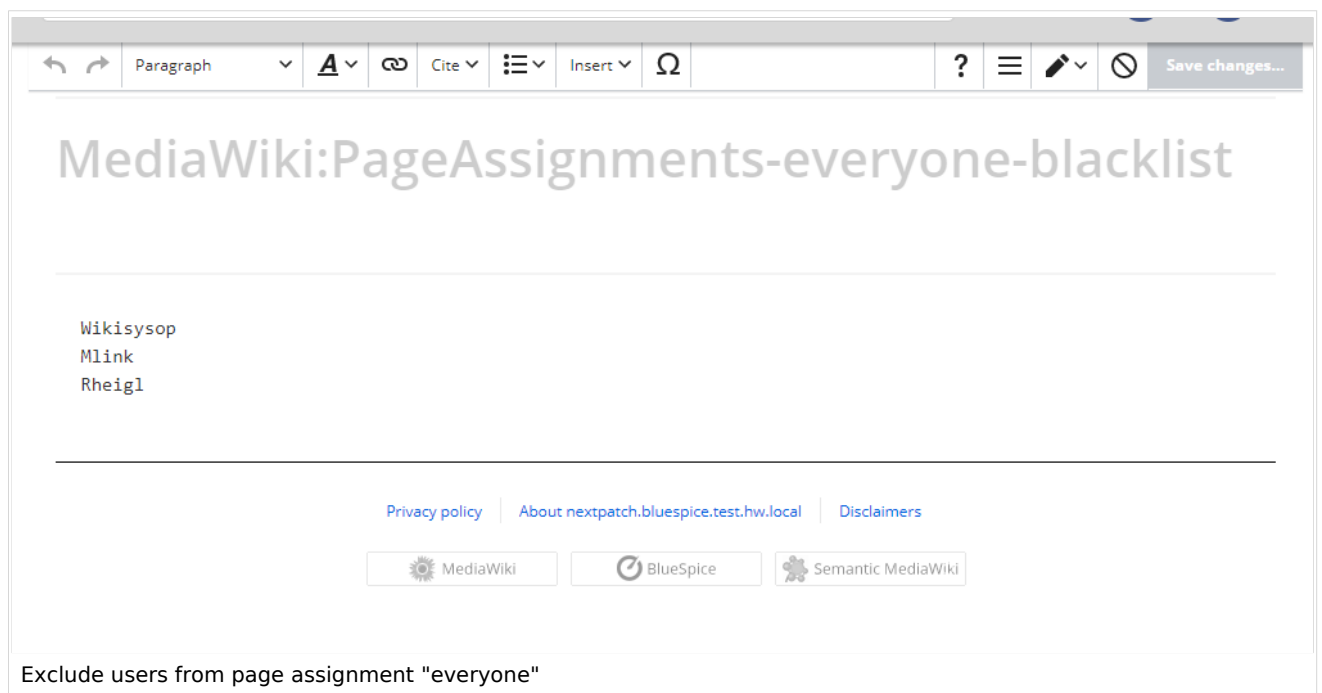

Set the limit:

```
$GLOBALS['bsgPageAssignmentsPageHeaderLimit'] = 25;
```

Assign all users (with option to exclude some users)

To activate the option to assign all users to a page, a group *everyone* can be created. For this, the following code needs to be set in *<bluepsice-installationpath>/extensions /BlueSpicePageAssignments/extension.json*:

```
"PageAssignmentsActivatedTypes": {
                    "value": [
                            "user",
                            "group",
                            "everyone"
                    ]
},
```

This allows users to add the group everyone to a page assignment. Individual users can be excluded from the assignment by creating the file *MediaWiki:PageAssignments-everyone-blacklist*. Users can be added to this blacklist with using line breaks.

Exclude users from page assignment "everyone"

Rights (permissions)

Pages can only be assigned to users with the *pageassignable* permission (by default, this right is assigned to the *reader, editor* and a*uthor* roles). Only users with *pageassignments* permission can assign pages to others (by default, this right is assigned to the *reviewer, admin* and *maintenanceadmin* roles).

Requirements

PageAssignments requires BlueSpiceFoundation.
