

Manual:Template/Template package

A [quality version](#) of this page, [approved](#) on *17 February 2021*, was based off this revision.

Below is a set of templates which you can import into your wiki. You can upload the entire package. If you only want to use one particular template, click on the template below and download the necessary zip file for that template.

Instructions

1. [Download the package as zip file](#).
2. Unzip the archive.
3. Go to the special page Special:Import on your wiki (this page is only visible to users with admin rights).
 - Select the individual template file you want to upload or *AllTemplates.xml* to upload all templates.
 - Enter a *Interwiki prefix*. Since this field is required for the upload, you can simply enter *hw* (for: hallowelt).
 - Select "Template" from the *import to a namespace* select menu.

The templates are now available in your wiki and can be added using the *Insert > Template* function of Visual Editor.

Subpages

- [Subpage 1](#)
- [Subpage 2](#)
- ...

Subpages: List all subpages of any wiki page

Note: This is a note.

Tip: This is a tip.

Example: This is an example.

Warning: This is a warning.

Important! This is important.

This is a box without label.

Box Note: Add an infobox to a page

Working with blogs

About the blog

Basically, a blog is a list of comments, questions, or feedback from different users. The blog is often used chronologically, however, in the sense of a public journal. A blog communication can also refer to the contributors who have commented, commented, shared with related editors or provided a personal reaction.

The extension [BlueSpiceWiki](#) is a part of [BlueSpiceWiki](#), the communication module of [BlueSpice](#). It allows to use blog, there are different types of content, such as comments, discussion, attachments, or a gallery.

Contributions from all users can be consolidated and displayed chronologically with [BlueSpiceWiki](#) in a timeline and filtered and sorted as needed.

The blog feature is made for use on the special page [Special:Blog](#). This page is linked directly from the main navigation in every new user installation. On your own using the blog right away, it is also possible to include the blog functionality on any web page. Let's get right to it.

Adding the blog to a page

If you want to include a new blog on another page of your wiki, for example your homepage, you need to insert the necessary codeblock in the source code of your page.

Transclusion

Transclusion: Transclude a page into a page

Vertically centered

The box content is centered vertically and the title has no margin.

Box with padding

This box container has some padding around the content.
Try out 2 or 3 lines as well.

Box without padding

This box container has no padding but there is padding around the text.
Try out 2 or 3 lines as well.

Box without image

A banner can be text-based as well. Just don't add an image.

PageBanner: Add a banner to a page

before	after
Wikis as Knowledge Base Wikis and its sister projects are currently the most popular knowledge bases. Wikis are online, usually web-based, collaborative systems for organizing and storing knowledge. Different contributions are usually linked to each other. As the page is, the knowledge base and more valuable as the connections become richer and more complex. Content Management Content management (CM) is a set of processes and technologies that supports the collection, managing, and publishing of information in any form or medium. When stored and accessed as computers, this information may be more specifically referred to as digital content, or simply as content.
