Features

ArticleInfo shows you the relevant information about an article at the top of the page in the state bar. Thanks to ArticleInfo you get information about:

- when the article has been edited the last time (link to history)
- author of recent change (link to user page of the author)
- first three categories that are dedicated? (link to category pages)
- subpages (opens the state bar there you will find links to the subpages)

If you use the fly out of the state bar it also shows a summary of the recent edit.
Other informations shown in the state bar are delivered by other extensions like SaferEdit.
Further information on this you will find on StateBar
