| Type: | BlueSpice | Category: | Data Analysis |
| Edition: | BlueSpice free, BlueSpice pro, BlueSpice Farm, BlueSpice Cloud | | |
| View help page | | | |

Features

BlueSpiceAuthors displays the profile images of the users who have contributed to a wiki page. They are listed on the *Page information*, which can be accessed from the quality management tools.

- **Image selection:** The image shows the profile image that a user is currently using.
- **Avatar:** If a user has not uploaded a profile picture, a personalized avatar is shown.
- **Deleted users:** If users are not registered or were deleted since they made the contribution, an image with a yellow question mark is displayed.
- **Interaction:** Hovering over the profile picture shows the user name. The image links to the user's profile page.

Users with admin rights can set in the [Config manager](#) if and how many authors should be shown on the page information. If there are more authors than configured, a pagination is being generated.

The display of authors can be suppressed with the behavior switch `__NOAUTHORS__` on an individual wiki page. It can be placed anywhere in the source code.

Technical Information

This information applies to BlueSpice 3 . Technical details for BlueSpice cloud can differ in some cases.

Requirements

MediaWiki: 1.31
BlueSpiceFoundation: 3.2

Integrates into

- BlueSpiceArticleInfo

Special pages

Configuration
