| <b>Description:</b> | Makes MediaWiki enterprise ready                               |                    |                                                                                                                                                                                                                                 |
| <b>State:</b>       | stable                                                         | <b>Dependency:</b> | BlueSpice                                                                                                                                                                                                                       |
| <b>Developer:</b>   | HalloWelt                                                      | <b>License:</b>    | GPL-3.0-onlyProperty "BSExtensionInfoLicense" (as page type) with input value "</br>GPL-3.0-only" contains invalid characters or is incomplete and therefore can cause unexpected results during a query or annotation process. |
| <b>Type:</b>        | BlueSpice                                                      | <b>Category:</b>   | Infrastructure                                                                                                                                                                                                                  |
| <b>Edition:</b>     | BlueSpice free, BlueSpice pro, BlueSpice Farm, BlueSpice Cloud |                    |                                                                                                                                                                                                                                 |

## Features

The extension **BlueSpiceFoundation** is the interface between BlueSpice and Mediawiki. It provides basic functions for the individual BlueSpice extensions.

If you install any BlueSpice extension in a MediaWiki environment - that is outside of BlueSpice free or BlueSpice pro - the reference information for the extension will indicate if it requires BlueSpiceFoundation.

## Technical Information

This information applies to BlueSpice 3 . Technical details for BlueSpice cloud can differ in some cases.

## Requirements

MediaWiki: 1.31  
ExtJSBase: 1.31

## Integrates into

- BlueSpicePrivacy

## Special pages

- SpecialCredits
- WikiAdmin

## Configuration

| Name                | Value                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
