

Reference:BlueSpiceSocialResolve

Extension\>: BlueSpiceSocialResolve

Overview			
Description:	Resolve functionality for BlueSpiceSocial-entities		
State:	stable	Dependency:	BlueSpice
Developer:	HalloWelt	License:	GPL-3.0-onlyProperty "BSExtensionInfoLicense" (as page type) with input value "</br>GPL-3.0-only" contains invalid characters or is incomplete and therefore can cause unexpected results during a query or annotation process.
Type:	BlueSpice	Category:	Communication
Edition:	BlueSpice pro, BlueSpice Farm, BlueSpice Cloud		

Features

SocialResolve provides the unresolved/resolved status for SocialEntities. By default, the status functionality is attached to entities of type *topic* (discussion entries).

Warning: Pages in the namespaces *SocialEntity* and *User* are indexed by search engines by default until prior to version 3.1.13. If you run a public wiki with an earlier version, you should [exclude these namespaces from being searchable](#) unless you want these pages to be indexed by public search engines.

This extension adds a button to the social entity topic. Clicking it toggles the unresolved/resolved state of the topic. Closed social entities have a green background by default and their view type is changed to "Short". It is not possible to use this extension for social entities of type *profile*.

Technical Information

This information applies to BlueSpice 3 . Technical details for BlueSpice cloud can differ in some cases.

Requirements

MediaWiki: 1.31
BlueSpiceFoundation: 3.2

- BlueSpiceSocial: 3.2
