| **View help page** | | | |

## Features

**SocialMicroBlog** provides the SocialEntity of type *microblog*.

> **Warning:** Pages in the namespaces *SocialEntity* and *User* are indexed by search engines by default until version 3.1.13. If you run a public wiki with an earlier version, you should exclude these namespaces from being searchable unless you want these pages to be indexed by public search engines.

Microblog posts can be created on `Special:Timeline` by clicking the "plus" button. In contrast to blog posts, microblog post have no title, but consist only of their content.
