Features

UserSideBar lets users create their own personal sidebar navigation.

- The content under Focus in the Users' Home Bar can be customized by the user.
- Extensions can provide a tag over which content is displayed, currently the following pages are shown by default:
  - PAGESVISITED
  - YOUREDITS (own edits)
  - WATCHLIST
- Users can also create their own areas:
  - Entries with an asterisk (*) are always interpreted as area headings (analog mediawiki: sidebar).
  - Entries with two stars (**) are content elements of the area. Single (**) without assignment to (*) are discarded.
  - The pages are determined as in the Mediawiki: Sidebar by URL
