## Importing the template

The import file is included in the archive file *HW-minutes-management.zip*. Unpack the zip file first.

On the page *Special:Import* follow these steps:

1. **Select file** and choose *HW-minutes-management.xml*.
2. **Enter** an Interwiki prefix. Since this field is required, simply add *hw* (for hallowelt).
3. **Keep** the selection *Import to default locations*.
4. **Click Upload file...**

The form-based template is now available in your wiki.

## Pages included in the import<

- Template:JF Status/en
- Template:Meeting minutes/styles.css

- Template:Meeting minutes Management

## Using the template

---

You can define this template as a [page template](#) in your wiki if you have administrator rights. If you have also downloaded the [general template for team meeting minutes](#), you can also define this template to be preloaded as such a team template.
