

## Templates download/Banner

This template creates a page banner that you can include on portal pages, for example. You can see an example here in the Helpdesk on the topic pages, e.g, [quality assurance](#).

### Download

**Vertically centered**  
The box content is centered vertically and the title has no margin.

**Box with padding**  
This box container has some padding around the content. Try out 2 or 3 lines as well.

**Box without padding**  
This box container has no padding but there is padding around the text. Try out 2 or 3 lines as well.

**Box without image**  
A banner can be text-based as well. Just don't add an image.

## Importing the template

The import file is included in the archive file *HW-banner.zip*. Unpack the zip file first.

On the page *Special:Import* follow these steps:

1. **Select file** and choose *HW-banner.xml*.
2. **Enter** an Interwiki prefix. Since this field is required, simply add *hw* (for hallowelt).
3. **Keep** the selection *Import to default locations*.
4. **Click** Sie *Upload file...*

The form-based template is now available in your wiki.

**Important!** The input fields for the template parameters are usually not automatically available after importing the template to your wiki. You have to open the imported template file and make an edit (e.g., add a space and then save the page) to activate the template data functionality. The input fields should now be displayed correctly when you use the template on a page.

## Pages included in the import

The xml import creates the following files in your wiki:

- Template:Banner
- Template:Banner/styles.css

## Creating a banner

Alle settings for the banner are optional. This means that a box can be generated without image, heading, or text.

Example settings:

	Element	Value	Description
1	Banner image	QM: Flower_white. jpg	Image name (with namespace prefix, if it exists, but without the <i>File:</i> prefix). The banner image is optional.
	Image width	200	Number. The width will automatically be used as pixel-value. Default value: <i>200</i>
	Image alignment	left, right	Shows the imag to the left or right. Default value: <i>left</i> .
2	Heading	Meine Überschrift	Heading text
	Heading size	1.6em	Size can also be entered as 16px or any other css size value. Default value: <i>1.6em</i> .
	Heading color	#444444	Color as <a href="#">hex value</a> .
3	Text	Das ist der Inhalt.	Text of the box.
	Text size	1.2em	<i>see Heading size</i>
	Text color	#444444	<i>see Heading color</i>
4	Content padding	20px	Distance of the title/text area to the box and the image. Default value: <i>10px</i> .

	Element	Value	Description
5	Padding of the container box	10px	Padding of the box itself. Default value: <i>0</i> .
6	Background color	#efefef	Color as <a href="#">hex value</a> . Default value <i>#efefef</i> (a light grey)
