Features

BlueSpiceAvatars handles profile images of wiki users. Initially, every user has an automatically generated avatar.

Usage / Features

This extension adds an option to each user's page to change his profile image. At the top of a user's page users can see their current profile image and the link "Userimage". Clicking on this link opens a dialog offering several options for setting a profile image:

- upload a new image
- link to an image that has already been uploaded
- generate a new avatar
