Features

Black- and whitelist to forbid creating new articles and user accounts.

This extension [comes with MediaWiki 1.21](#) and above. Thus you do not have to download it again. However, you still need to follow the other instructions provided.

The **TitleBlacklist** extension allows wiki administrators to block the creation, movement and upload of pages, the title of which matches one or more [regular expressions](#), as well as blocking creation of accounts with matching usernames.
