Features

Description

Special page listing the files in the Wiki. Simplifies the display and search of images and files.

Usage / Features

- ExtendedFileList contains a list with files.
- While typing search string in filter input field, the number of listed Files is reduced.
- A namespace can be selected. ("TEST" -> "File:TEST:")
- If there are many results, these are shown on several pages. The maximum number of hits per page can be set.
- Columns with different information can be toggled on and off. Sorting these columns is possible (ascending/descending)
- An upload button allows uploading files.
- Click on:
 - preview image: open file
 - filename: open page "File:filename"

Configuration

Rights (permissions)

Permission to access special pages is required.
