| <b>Developer:</b>   | HalloWelt                                                             | <b>License:</b>    | -                     |
| <b>Type:</b>        | BlueSpice                                                             | <b>Category:</b>   | Search and Navigation |
| <b>Edition:</b>     | BlueSpice free, BlueSpice pro                                         |                    |                       |

### Features

---

Inserts a field to filter entries in Special:Specialpages.

### Usage

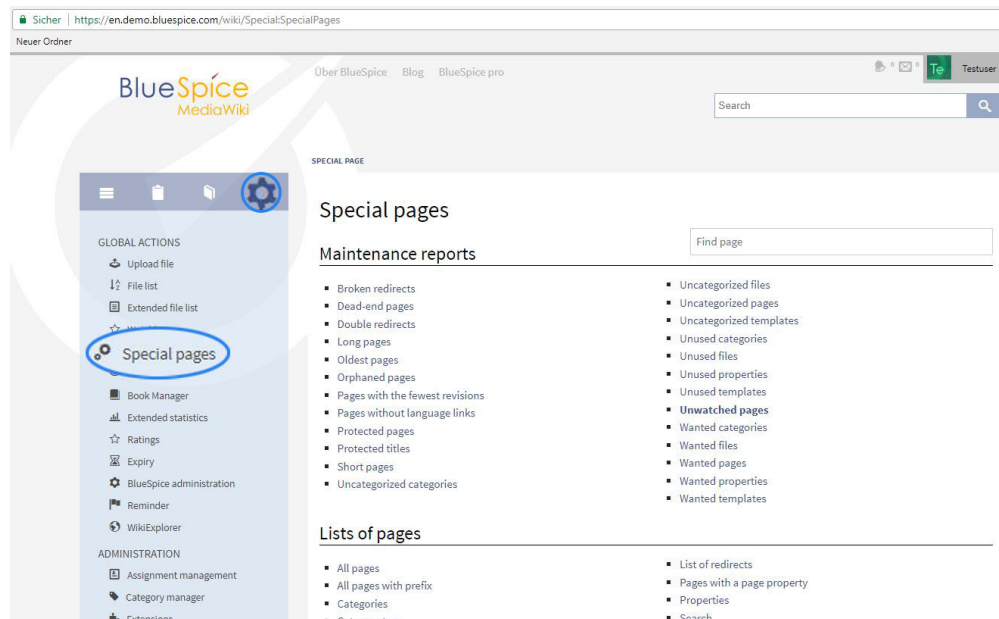

---

Quick access and less searching for special pages: The extension offers a search field at the special page "Specialpages". While typing a search string (e.g. "pages") only special pages with this search string in the title will be shown.

### Special keys

- Enter: open page link if only one entry left
- Esc: toggle input selection

## Screenshots\:

This is an extension for MediaWiki. BlueSpice is not required. FilterSpecialPages can be used e. g. with vector skin, too.
