Description

Inserts a field to filter entries in Special:Specialpages.

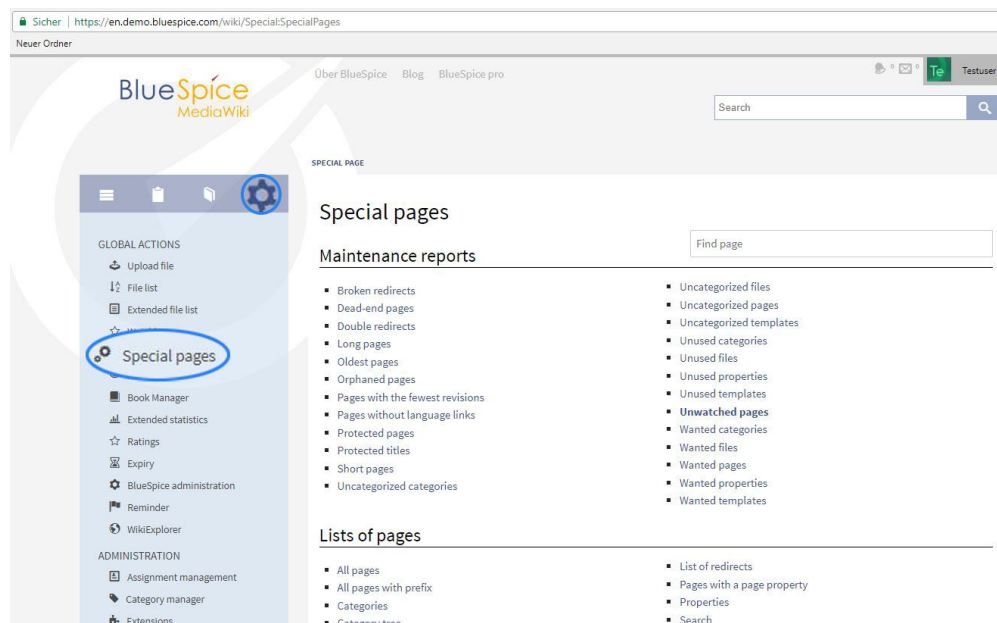

Usage

Quick access and less searching for special pages: The extension offers a search field at the special page "Specialpages". While typing a search string (e.g. "pages") only special pages with this search string in the title will be shown.

Special keys

- Enter: open page link if only one entry left
- Esc: toggle input selection

Screenshots:

This is an extension for MediaWiki. BlueSpice is not required. FilterSpecialPages can be used e. g. with vector skin, too.
