Description

HideTitle enables hiding of the title on the page, if it's necessary.

Usage / Features

To hide title use `__HIDETITLE__` switch at the top of the page in edit mode.

Changing an existing article title completely is not possible, but you can move the article's content to another article with the correct name.

Tips for working

This extension is very useful on the main page. There you won't see "Main page" but nothing or maybe a "Welcome".
