What is RSSFeeder?

RSSFeeder offers a special page that describes and enables RSS-Feeds for chosen areas of the MediaWiki.

Where to find RSSStandards?

Go to special pages. You will find the special pages linked in the left navigation under "tools" or in the widget bar (star symbol on the right side). It's also possible to use `Special:Special pages` in the URL of the browser. Under the item "BlueSpice" you will find the special page "RSSFeeder". Alternatively you can type `Special:RSS_Feeder` into the browser bar.
