Boxes

The basic configuration of this wiki contains standard-boxes. You can easily enframe textparts or change the background colour.

Following Frames are available:

class: border-blue, blueborder

class: border-beige, beigeborder

class: border-green, greenborder

class: border-yellow, yellowborder

class: border-red, redborder

Following boxes are available:

class: box-blue, bluebox

class: box-beige, beigebox

class: box-green, greenbox

class: box-yellow, yellowbox

class: box-red, redbox

You can also combine different frames and boxes together:

class: box-blue

class: box-red

class: box-green

```
standard preformated text (MediaWiki)
```

class: box-yellow

class: border-red, redborder

To enframe a text with colours you have to work with div-tags. For example:

Aussehen	Code
Hello World!	`<div class="box-blue"> Hello World! </div>`
Hello World!	`<div class="border-blue"> Hello World! </div>`
