## Description

---

**ExtensionInfo** creates a special page with basic information about loaded extensions of a wiki: extension name, description, version or status.

## Usage / Features

---

- A special page displays information about all installed BlueSpice extensions.
- A separate block is formed per package and all extensions with this status are displayed in it.
- The complete version of BlueSpice appears at the top of the page.

## Technical information

---

### Configuration

This extension offers no configurations.

### Rights (permissions)

This extension does not require any special rights.

### Requirements

ExtensionInfo requires [BlueSpiceFoundation](#).

### User manual

---

For detailed description and usage, visit our [user manual](#).

## Try free our BlueSpice
