Description

InsertImage is a tool developed by *Hallo Welt!* which lets you upload, insert and edit images using a pop-up window. Inserting images with BlueSpice is much easier than with MediaWiki because you no longer have to change to a special page to upload them.

Usage / Features

You can open the dialogue when you are using the [WYSIWYG editor](#), as well as in the wikicode.

Technical information

Configuration

This extension offers no configurations.

Rights (permissions)

This extension does not require any special rights. Users must have "edit" permission to be able to insert an image.

Requirements

InsertImage requires [BlueSpiceFoundation](#) and [InsertFile](#).

User manual

For detailed description and usage, visit our [user manual](#).
