## Extension/GroupManager

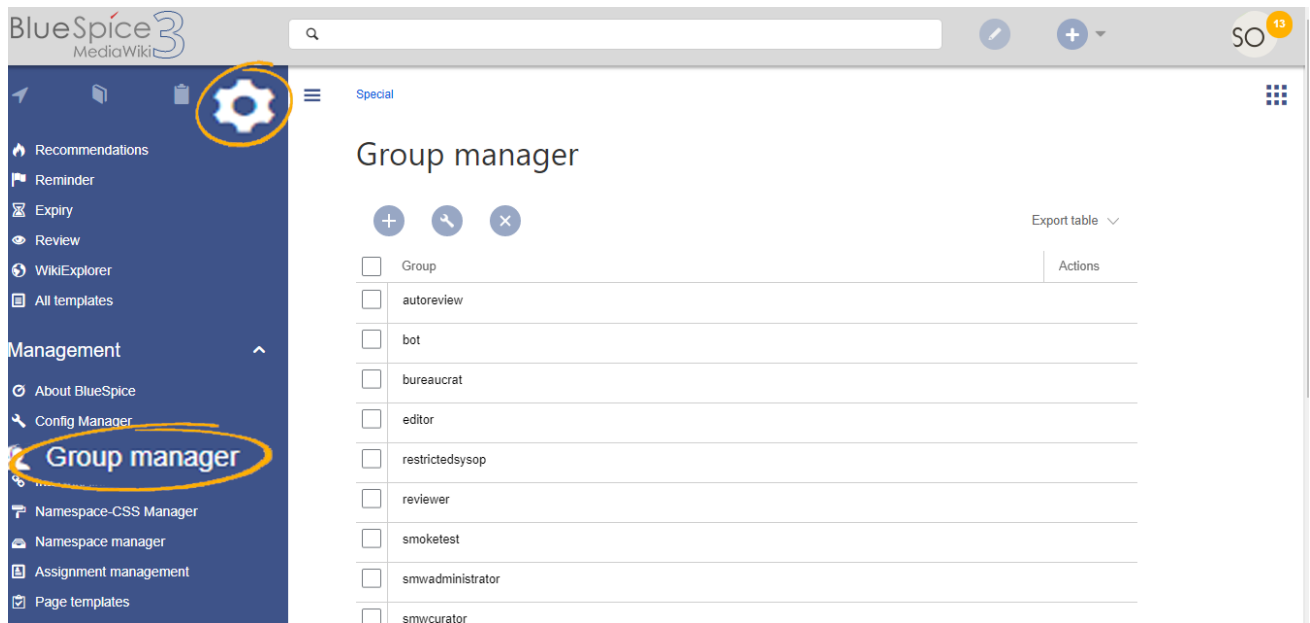

The interface for the Group manager is provided by the extension **GroupManager**. It allows adding, renaming and deleting groups.

## Functionality

An administrator can go to *Global actions > Management > Group manager*. This opens the page *Special:GroupManager*.

The group manager has the following features:

- **Viewing groups:** All existing groups in the wiki are listed.
- **Creating new groups:** Clicking on the "plus" button opens a dialog for adding a new group.
- **Renaming groups:** A group can be renamed by selecting it and then clicking the wrench icon. System groups and groups declared by other extensions cannot be renamed.
- **Deleting a group:** A group can be deleted by selecting it and then clicking the "x" button. System groups cannot be deleted.

## Assigning roles and users to groups

To assign users to groups, use the [User manager](#). To assign roles (permissions) to groups, use the [Permission manager](#).
