## Manual:Extension/BlueSpiceWikiExplorer

A [quality version](#) of this page, [approved](#) on *16 September 2020*, was based off this revision.

The extension **WikiExplorer** allows to quickly filter and sort all Wiki pages based on your own filter criteria. WikiExplorer combines the functionality of many maintenance pages. By combining different filters, you can quickly find matching pages.

### Contents

|                                                 |   |

## Accessing WikiExplorer

To access Wiki Explorer, go to *Global actions* and select *WikiExplorer*. This opens the special page *Special:WikiExplorer*.

## Choosing the sorting criteria

Sorting criteria and visible columns can be changed by clicking on the arrow icon in the header of any list column.

## Sorting sequence

Clicking on the header of any column (not on the arrow) sorts the table based on the values of that column. Changing the sorting order (ascending, descending) can be switched by clicking on the header multiple times.

## Using filters

For some content, there are specially adapted filters available which can be used to sort the list. Filters can be accessed by clicking on the "arrow" icon in the column that should be filtered.

The following columns support filtering:

| Content           | Possible filters                                                   | Sortable |
|-------------------|--------------------------------------------------------------------|----------|
| Title (Page name) | starts with, ends with, contains, contains not, equals, equals not | Yes      |
| Namespace         | starts with, ends with, contains, contains not, equals, equals not | Yes      |

| Content                       | Possible filters                | Sortable |
|-------------------------------|---------------------------------|----------|
| Accesses                      | less than, greater than, equals | Yes      |
| Creation date                 | None                            | No       |
| Is redirect                   | None                            | Yes      |
| Last comment                  | None                            | Yes      |
| Last edit date                | None                            | No       |
| Size                          | less than, greater than, equals | Yes      |
| Last editor                   | None                            | Yes      |
| Categories                    | None                            | No       |
| Linked files                  | None                            | No       |
| Linked pages                  | None                            | No       |
| Links to this page            | None                            | No       |
| Assigned editors              | None                            | Yes      |
| Released                      | yes, no                         | Yes      |
| Release date                  | less than, greater than, equals | Yes      |
| New version waits for release | None                            | Yes      |

## Features

**WikiExplorer** provides a special page with a list of all wiki pages which can be filtered and sorted.

- Multiple sorting and filtering possibilities.
- Supports wiki maintenance

**WikiExplorer** is implemented with ExtJS, to maintain compatibility.

## Technical Information

This information applies to BlueSpice 3 . Technical details for BlueSpice cloud can differ in some cases.

## Requirements

MediaWiki: 1.31  
BlueSpiceFoundation: 3.2

## Integrates into

## Special pages

- [WikiExplorer](#)

## API Modules

- [bs-wikiexplorer-store](#)

## Hooks
