Features

AboutBlueSpice offers a wiki page to provide additional information from an external source, e. g. a page from a content management system.

The extension was developed for marketing reasons, so that people come via a link to an included external page. It is delivered with every edition of a BlueSpice MediaWiki distribution.

The extension inserts a link *About BlueSpice* in the main navigation. The content of the external page is embedded via an [iframe](#).

This link can be deactivated in the `[[Reference:BlueSpiceConfigManager|]]`.
