Type:	BlueSpice	**Category:**	Data Analysis
Edition:	BlueSpice free, BlueSpice pro, BlueSpice Farm, BlueSpice Cloud		
View help page			

Features

BlueSpiceAuthors displays the profile images of the users who have contributed to a wiki page. They are listed on the *Page information*, which can be accessed from the quality management tools.

- **Image selection:** The image shows the profile image that a user is currently using.
- **Avatar:** If a user has not uploaded a profile picture, a personalized avatar is shown.
- **Deleted users:** If users are not registered or were deleted since they made the contribution, an image with a yellow question mark is displayed.
- **Interaction:** Hovering over the profile picture shows the user name. The image links to the user's profile page.

Users with admin rights can set in the Config manager if and how many authors should be shown on the page information. If there are more authors than configured, a pagination is being generated.

The display of authors can be supressed with the behavior switch `__NOAUTHORS__` on an individual wiki page. It can be placed anywhere in the source code.

Technical Information

This information applies to BlueSpice 3 . Technical details for BlueSpice cloud can differ in some cases.

Requirements

MediaWiki: 1.31
BlueSpiceFoundation: 3.2

Integrates into

- BlueSpiceArticleInfo

Special pages

Configuration

Name	Value
AuthorsBlacklist	array (0 => 'MediaWiki default',)
AuthorsNamespaceBlacklist	array (0 => 6, 1 => 7, 2 => 8, 3 => 9, 4 => 14, 5 => 15,)
AuthorsShow	true

API Modules

- bs-pageauthors-store

Hooks

- BSInsertMagicAjaxGetData
