Extension\>: BlueSpiceFilterableTables

Overview			
Description:	Provides a filterable content tables		
State:	stable	Dependency:	BlueSpice
Developer:	Patric Wirth	License:	GPL-3.0-onlyProperty "BSExtensionInfoLicense" (as page type) with input value "</br>GPL-3.0-only" contains invalid characters or is incomplete and therefore can cause unexpected results during a query or annotation process.
Type:	BlueSpice	Category:	Rich Articles
Edition:	BlueSpice pro, BlueSpice Farm, BlueSpice Cloud		
View help page			

Features

FilterableTables offers the ability to filter regular content tables in wiki pages. To add filterability to a table, a CSS class "filterable" is added to the table.

Technical Information

This information applies to BlueSpice 3 . Technical details for BlueSpice cloud can differ in some cases.

Requirements

MediaWiki: 1.31
BlueSpiceFoundation: 3.2

Setting the filter option

To create the table filter, the CSS class "filterable" is added to the table.

Using VisualEditor

In edit mode, click on the table to open the options popup and click on "Properties". In the dialog that opens, toggle on "Filterable" option.

The left screenshot shows a table with a 'Table' popup open. The 'Properties' button is circled in orange. Below the screenshot is the text: "Selecting table properties".

The right screenshot shows the 'Table properties' dialog. The 'Filterable' toggle switch is turned on and circled in orange. Below the screenshot is the text: "Setting the filter option".

Using Wikitext

```

{| class="wikitable filterable"
|+
!Heading 1
!Heading 2
!Heading 3
!Heading 4
|-
|Cell 1
|Cell 2
|Cell 3
|Cell 4
|-
|Cell 5
|Cell 6
|Cell 7
|Cell 8
|-
|Cell 9
|Cell 10
|Cell 11
|Cell 12
|}

```

Adding the "filterable" class in wikitext

In source-editing mode, add the class "filterable" to the table header.

```
{| class="wikitable filterable"
|+
!Heading 1
...
}
```

Filtering tables

The special filter layout of a table is only applied in view mode.

To filter the values in the table, click on the header of the column to filter and select "Filter" from the dropdown menu. In the input field that opens, type in the filter text.

The screenshot shows a MediaWiki page titled "Test". At the top, there is a navigation bar with a hamburger menu, the word "Page", a timer showing "2 seconds - Sissy Oppermann", and icons for chat, refresh, and star. Below the navigation bar is the page title "Test".

The main content area features a table with four columns: "Heading 1", "Heading 2", "Heading 3", and "Heading 4". The first row contains "Cell 1", "Cell 2", "Cell 3", and an empty cell. A dropdown menu is open over the "Heading 3" column, showing options: "Heading 4", "Sort Ascending", "Sort Descending", "Columns", and "Filters". The "Filters" option is checked, and a search input field with the number "3" is visible. A yellow circle highlights the dropdown menu.

Below the table is a section titled "Attachments" with the text "No attachment area has been created yet." and a button "Create new attachment area".

Below the attachments section is a section titled "Discussions" with a text input field containing "New Topic".

At the bottom of the screenshot, the text "Applying a table filter" is visible.

Note: Any table styles that are applied by the table class are ignored as long as the value "filterable" exists in the class rule. A filterable table comes with its own table styling.
