Features

The extension **Reminder** allows users to keep track of pages by adding a notification date for themselves or for other users.

- Set a reminder date for yourself or for other users
- Make the date a recurring event
- View and manage a list of your personal reminders
- View a filterable list of all reminders on the wiki

In the user preferences, users can set if and how they want to be notified a week before the event and on the day of the event.
