View help page			

Features

BlueSpiceSignHere allows you to quickly sign off a wiki page. It enhances and automates the built-in MediaWiki functions that allows users to leave their signature on the page.

SignHere adds the tag `<bs:signhere />` to a wiki page.

Technical Information

This information applies to BlueSpice 3 . Technical details for BlueSpice cloud can differ in some cases.

Requirements

MediaWiki: 1.31

BlueSpiceFoundation: 3.2

Integrates into

- BlueSpiceVisualEditorConnector

Special pages

Hooks

- [BSInsertMagicAjaxGetData](#)
- [ParserFirstCallInit](#)

Page signatures

A [quality version](#) of this page, [approved](#) on *28 July 2020*, was based off this revision.

The extension **BlueSpiceSignHere** allows you to quickly sign off a wiki article. It enhances and automatizes built-in MediaWiki functions that allow users to leave their signature on the page.

Contents

1	Inserting the tag	4
2	Restrictions	5
3	Related info	5

Inserting the tag

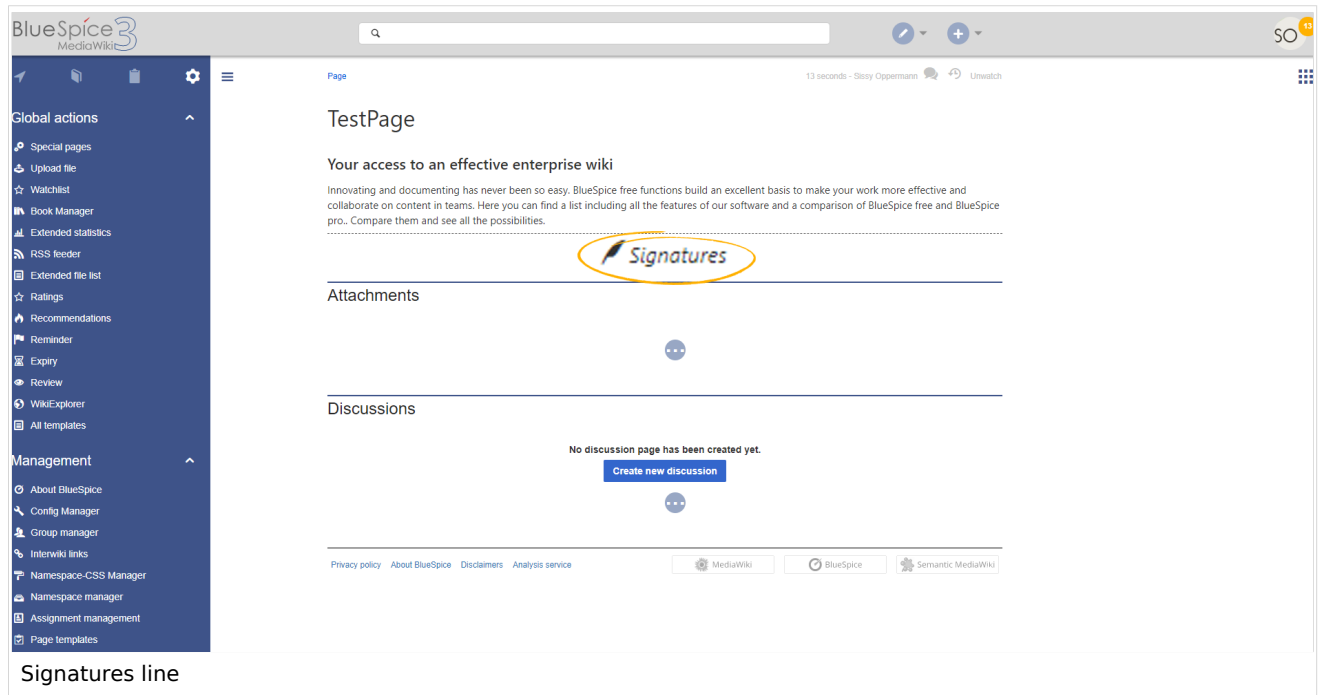

While in edit mode, add (usually on the bottom), the following tag in source edit mode.

```
<bs:signhere />
```

Alternatively, you can insert the tag in visual editing mode with VisualEditor. Select *Insert* > *Magic Word* and select *signhere*:

Once the page is saved, every user who visits the page sees the field for *Signatures*.

By clicking on this field, the user's signature is automatically inserted. The signature shows the username as defined in the user's [preferences](#) as well as the timestamp of the signing. Signatures appear in chronological order of signing.

Restrictions

Every user's signature is added to the page in plain text, as it would be when using the built-in MediaWiki signature function. While it may not be obvious to users reading the page, all users with edit rights can add or remove signatures. As a safe-guard against such actions, the page history log shows when signatures were added.
