View help page			

Features

SocialMicroBlog provides the SocialEntity of type *microblog*.

Warning: Pages in the namespaces *SocialEntity* and *User* are indexed by search engines by default until version 3.1.13. If you run a public wiki with an earlier version, you should [exclude these namespaces from being searchable](#) unless you want these pages to be indexed by public search engines.

Microblog posts can be created on `Special:Timeline` by clicking the "plus" button. In contrast to blog posts, microblog post have no title, but consist only of their content.
